

Agile with Trello – Student Assignment (Short Version)

Objective:

Learn basic Agile workflow using Trello by creating user stories, a sprint, and a task board.

1. Create Trello Board

- Go to <https://trello.com> and sign up.
- Create a new board named "Student Task Management – Agile Board".

2. Create Lists (Columns)

- Product Backlog
- Sprint Backlog
- To Do
- In Progress
- Testing / Review
- Done

3. Add User Stories

Use this format:

"As a student, I want so that ."

Add at least 6 user stories in Product Backlog.

4. Sprint Planning

- Move 4–5 stories to Sprint Backlog.
- Add Acceptance Criteria as a checklist.

5. Break Work into Tasks

For each story, add subtasks (UI, logic, testing, etc.).

6. Start Work (Kanban Flow)

Move cards:

To Do → In Progress → Testing/Review → Done.

7. Add Priority Labels

High (red), Medium (yellow), Low (green).

8. Add Due Dates

Assign deadlines to tasks.

9. Attach Evidence

Add screenshots of:

- Board overview
- Story details
- Tasks in Done

10. Submission

Submit:

1. Trello board link
2. 1–2 screenshots showing progress

End of Assignment
